INSTRUCTIONS TO VENDORS

Examination of Specifications

The submission of a Quotation will constitute an incontrovertible representation by the Vendor that he has examined the Specifications and concurs that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions for furnishing the Equipment and Services.

Interpretations

All questions about the meaning or intent of the Specifications shall be submitted to the Owner in writing at the email address noted in the Advertisement. Replies will be issued by Addenda posted to South Valley Water Reclamation Facility's website. Questions received on the day of closing for the advertisement may not be answered. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

Substitute Equipment or Services

The contract, if awarded, will be on the basis of supplying Equipment and Services described and specified. Specific reference to a brand, make, or manufacturer, together with a model or catalog number, in the Specifications, is to denote minimum quality standards of products required. The intent of the Specifications is to set forth and convey to Vendors, the style, type, character, and minimum quality of product required. Equivalent products will be considered by the Owner with the Owner's decisions considered final.

Quotation Form

The Quotation shall be made on the Quotation forms bound herein and in the manner hereafter specified. The Quotation forms shall be completed in ink or by printer, all names must be typed or printed below the signature, and the Quotation forms shall include the name of the Vendor and the date of the submission.

Modification and Withdrawal of Quotations

Quotations may be modified or withdrawn by an appropriate document duly executed and delivered to the place where Quotations are to be submitted at any time prior to the opening of Quotations.

Unauthorized conditions, limitations, or provisos attached to a Quotation will render it informal and may cause its rejection as being non-responsive. The completed Quotation forms shall be without interlineations, alterations, or erasures. Alternative Quotations may not be considered unless called for. Oral, telegraphic, or telephonic Quotations will not be considered.

INSTRUCTIONS TO VENDORS (continued)

Basis of Purchase Award

The Contract Award will be based on the following criteria:

- Total price.
- The ability to comply or exceed the Specifications.
- Evaluation by the Owner on the ease of operations and maintenance, service representative accessibility, financial capability of the Vendor and manufacturer, physical dimensions and gross weight of the unit, operational and maintenance costs, and overall safety features on the equipment.

At the completion of the evaluation by the Owner, the Owner may or may not award the purchase.

Award of Purchase

Owner reserves the right to reject any and all Quotations, to waive any and all informalities, to negotiate purchase terms with the Successful Vendor, and may disregard all nonconforming, non-responsive or conditional Quotations. Discrepancies between words and figures will be resolved in favor of words. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

Owner may conduct such investigations as Owner deems necessary to assist in the evaluation of any Quotation and to establish the responsibility, qualifications, and financial ability of the Vendor to furnish the Equipment and Services in accordance with the Specifications to Owner's satisfaction within the prescribed time. Owner reserves the right to reject the Quotation of any Vendor who does not pass any such evaluation to Owner's satisfaction.

The purchase, if awarded, will be in the best interest of the Owner. The successful Vendor will be notified following completion of Quotation evaluation.

Performance Testing

Upon installation of the replacement trip units the Vendor shall conduct performance testing. This performance testing will be conducted by the Vendor's operators who are knowledgeable of the Equipment. Performance testing will be required to demonstrate that equipment will meet the performance criteria set forth in these specifications. The performance testing will involve field testing in the presence of Owner personnel to verify the replacement trip units operate properly.

This performance testing will be conducted at the South Valley Water Reclamation site located at 7495 South 1300 West, West Jordan City, Utah.

In the event that defects in manufacture, workmanship, or performance are determined during the testing, the Vendor will be required to correct these within 15 days of receipt of

INSTRUCTIONS TO VENDORS (continued)

notice to do such by the Owner and prior to the Owner's final acceptance and subsequent payment. If the Vendor fails to correct any defects, etc. as described above within the 15 day period or refuses to correct them at all, the Owner reserves the right to refuse acceptance and terminate the purchase of the Equipment.

Vendor shall assume all risk of loss or damage to the Equipment prior to acceptance by the Owner at the point of delivery. Vendor shall purchase and maintain insurance on the Equipment during the process of fabrication and while in transit to insure against perils of fire, accident, theft, vandalism, or other perils.

Operator and Maintenance Manuals & Training

The successful Vendor shall provide O&M manuals on the equipment. The Vendor shall within ten days after acceptance of Equipment by the Owner, provide training to the Owner's equipment operators and maintenance personnel.

Terms of Payment

VENDOR shall submit their invoice for payment after delivery, acceptance, and training have been completed. Application for payment will be processed by the OWNER and 100% of the Quotation price shall be paid.

SPECIFICATIONS FOR GE WAVEPRO BREAKER TRIP UNITS

GENERAL

The **VENDOR** is required to furnish, in accordance with these Specifications the listed items in the price schedule.

The trip units shall be plug and play compatible with the existing GE Wavepro breakers in ES-1.

New trip units shall be GE Entelliguard TU Trip Units or equal. All existing functionality of the Microversa MVT trip units is to be maintained or improved upon.

Trip units shall be removable in the field and replaced by de-energizing and removing the cover of the circuit breaker.

Trip units shall include a graphical LCD. A DC battery shall provide backlight to the LCD when the current flow is less than 20% of the breaker's sensor rating.

Trip units shall be capable of interfacing via RS-485 supporting MODBUS to the existing MODBUS concentrator.

Trip units shall be provided with LCD batteries, rating plugs (sized as per the price schedule), and any and all parts required to install and operate them in the existing breakers.

Overcurrent protection functions shall meet or exceed existing performance of the Microversa MVT trip units.

PROGRAMMING / PARAMETER SETUP

The Vendor shall provide technician assistance to Owner personnel during setup of overcurrent protection settings.

OPERATION & MAINTENANCE MANUAL

Vendor shall supply three sets of Operation & Maintenance Manuals for equipment. Where possible, the manual shall contain operational procedures, recommended settings, preventative maintenance tasks and schedules, maintenance instructions, recommended spare parts, and vendor contact information for service and parts.

EXCEPTIONS

The Vendor shall note any and all exceptions from the specifications in their quotation. Owner reserves the right to reject exceptions to the specifications if deemed not in the best interest of the Owner.

WARRANTEES

The Owner shall receive and be beneficiary of all OEM warrantees. The Vendor shall warranty the equipment to be free from defects in workmanship and material under normal use and service for a period of one year. The warranty period begins the date the equipment is accepted by the Owner.

PERFORMANCE TESTING

Performance testing will be conducted at the South Valley Water Reclamation Facility site located at 7495 South 1300 West, West Jordan City, Utah.

OPERATOR AND MAINTENANCE TRAINING

Training shall include:

- Navigation of the menu system on the trip unit
- Instruction on how to set the trip unit settings and check on them
- Instruction on how to recognize faults, review the fault log, and clear active faults when appropriate
- Instructions on how to contact the Vendor in the event of an emergency
