

REQUEST FOR QUOTATION

The SVWRF is requesting quotation from vendors for the supply of one cast iron sluice gate and appurtenant accessories that meet the referenced Specification 15256 Sluice and Shear Gates and as described below. Quotations should be sent to the attention of Taigon Worthen, P.E. at tworthen@svwater.com and are due no later than February 2, 2026 by 11 AM.

The intent of this request is to procure a new gate to replace an existing gate. The quotation should include the following:

CAST IRON GATE FRAME (existing wall thimble will be reused)

CAST IRON SLUICE GATE

2-FT CAST IRON GATE FRAME EXTENSION AND ANCHORS FOR EPOXY EMBEDMENT

STEM GUIDE BRACKET (existing footwall bracket, pedestal, and gearbox will be reused)

SS STEM

THRUST NUT

OPERATOR NUT

STEM COVER

The gate shall be 48" x 48" with an operating head of 15-feet H₂O. Reference the February 5, 1985 submittal from Rodney Hunt Company.

Submittals shall be provided prior to fabrication. Quotations should include a delivery time frame upon receipt of approved submittals with FOB to the South Valley Water Reclamation Facility located in West Jordan City, UT.
