

## Laboratory Analyst

South Valley Water Reclamation Facility is accepting applications for an Environmental Laboratory Analyst. Duties include analyzing environmental samples for volatile and semi-volatile organic compounds using a GC/MS; performing sample extractions; interpreting data and producing reports; performing routine chemical and biological analysis of wastewater and sludge samples; developing, maintaining, and following Standard Operating Procedures; assisting in method development and validation; preparing standards; performing equipment maintenance; and troubleshooting problems. Field sampling will also be required.

Applicants **must** have a Bachelor's degree in a scientific field (chemistry, biology, etc.) **and** 2 – 5 years of full-time, paid laboratory experience. Prior experience working in a certified wastewater lab is preferred. Must be able to obtain Wastewater Certification within 18 months of employment.

This is a fulltime position with an excellent benefit package which includes medical, dental, state retirement, retirement health savings plan, short/long term disability, vacation, sick leave, and paid holidays. Salary is \$22.43 – 24.52/hour; based on experience. Physical/Drug testing is required. Equal Opportunity Employer.

Employment applications are available on our website at [www.svwater.com](http://www.svwater.com), under the customer service tab, then click on human resources. Please send resume/employment application to [svjobs@svwater.com](mailto:svjobs@svwater.com), or apply in person at 7495 South 1300 West West Jordan, Utah 84084.

Position closes at 4:00 p.m. Thursday, September 30, 2021.
