APPENDIX D	Electrical Contractor's Prequalification Questionnaire

NOTICE INVITING STATEMENTS OF QUALIFICATION

Statements of Qualification (SOQ) may be received on behalf of
South Valley Water Reclamation Facility Project 5 ("Project")

at the office of
Carollo Engineers, Inc.,
7090 S. Union Park Avenue, Suite 600
Midvale, UT 84047

until **4:00 p.m. local time on the 25th day of February, 2019**,
after which time additional SOQs will not be accepted.

Prospective General Contractors and Prospective Electrical Contractors may download the
Request for Qualifications (RFQ) documents from one of the following websites:
<https://bids.sciquest.com/apps/Router/PublicEvent?CustomerOrg=StateOfUtah>
www.svwater.com (Engineering tab)

Hard copy documents may also be obtained at the office of the Engineer
(please call 24 hours in advance to request hard copy)

Carollo Engineers, Inc.,
7090 S. Union Park Avenue, Suite 600
Midvale, UT 84047
801-233-2500

The proposed work is generally described as follows:

- Construction of a new multi-level grit removal building, including grit removal basins, grit pumping facilities, grit washing and conveying equipment, odor control, and associated appurtenances and yard piping.
- Modifications to existing bioreactors for improved biological phosphorus removal (BPR) including minor modifications to fine bubble diffusers, additional mixing equipment, improvements to the aeration control system, addition of trench drains, modifications to the mixed liquor recycle system, and associated appurtenances and yard piping.
- Construction of new duct banks and connections to existing manholes and handholes to bring power and fiber optic cables to the grit facility. Installation of a motor control center, panelboards, lighting transformer conduit and wire etc. to support the new grit facility. A new bioreactor powerhouse with three motor control centers and modifications to the existing powerhouse and motor control centers to support the bioreactor upgrades.

For further information contact (by email only):

Brad Jeppson, Project Manager:

bjepson@carollo.com

Use subject line: **SVWRF Project 5 Contractor Prequalification SOQ**

The Owner reserves the right to reject any or all proposals not conforming to the intent and purpose of the prequalification documents.

GENERAL AND ELECTRICAL CONTRACTOR'S QUALIFICATION STATEMENTS

INSTRUCTIONS FOR CONTRACTORS

ARTICLE 1 - OVERVIEW

1.01 Bidding Documents are expected to be available for the Project in spring of 2019.

A. General Description of the Work is as follows:

1. Construction of a new grit handling facility and upgrades to three of the four existing Bioreactors for biological phosphorus removal. These upgrades will not impact rated capacity of the water reclamation facility. The new grit facility will include grit removal, grit pumping, grit washing, and disposal of grit with a capacity to treat 40 million gallon per day (mgd) average daily flow. Associated process yard piping includes rerouting the dual influent pump lines to the new grit facility in addition to other drainage and utility piping in the yard. Upgrades to the bioreactors include mixed liquor recycle modifications and additional mechanical mixing for enhanced phosphorus removal, and other maintenance-related improvements.
2. Construction of new duct banks and connections to existing manholes and handholes to bring power and fiber optic cables to the grit facility. Installation of a motor control center, panelboards, lighting transformer conduit and wire etc. to support the new grit facility. A new bioreactor powerhouse with three motor control centers and modifications to the existing powerhouse and motor control centers to support the bioreactor upgrades.
3. Preliminary drawings are provided in Appendix A.

1.02 Definitions

- A. Project: South Valley Water Reclamation Facility Project 5.
- B. Work: Construction, including labor, materials, and other incidentals associated with completion of Project 5.
- C. Owner: South Valley Water Reclamation Facility.
- D. Engineer: Carollo Engineers, Inc.
- E. Bidding Documents: Plans, Specifications, and Contract Documents for the construction of the Project.
- F. Qualification Statement/Qualification Submittal: Qualifications submitted by Prospective Contractors in response to this notice inviting Statements of Qualification.
- G. Successful Completion: On-time completion of Project without liquidated damages or litigation, and meeting the self-performance criteria.
- H. Self-Performance: The value of construction completed by the Contractor's own employees.

- I. Responsive Bidder: Means a Bidder who has submitted a Bid which conforms in all material respects to the Bidding Documents.
 - J. Responsible Bidder: Means a Bidder who has the capacity and capability in all respects to perform fully the contract requirements and who has the integrity and reliability to assure good faith performance. Among factors to be considered in determining whether the Bidder meets these standards, are:
 - 1. Financial, material, equipment, facility, and personnel resources and expertise necessary to meet contractual requirements;
 - 2. A record of integrity;
 - 3. A record of Successful Completion defined as: completion of a project on time within a reasonable time and budget.
 - 4. Qualified legally to contract with the Owner, and;
 - 5. Has not failed to supply any necessary information in connection with the inquiry concerning responsibility.
- 1.03 Prequalification of prospective General Contractors and Electrical Contractors, hereafter referred to as Contractors, will be determined by the application of a pre-established rating system to the following information, including Schedule A below, to be submitted by prospective Contractors. General Contractors that plan to self-perform electrical construction for the proposed project must complete two sets of documents as outlined below in order to demonstrate both general and electrical construction qualifications.
- A. Schedule A - Key Personnel
 - B. Appendix B - General Contractor and Electrical Contractor's Reference Forms.
 - 1. List the three (3) projects most similar in scope to Project 5 completed by your company. Use the three project reference forms included in the packet. Preference will be given to projects with the same superintendent and project manager as proposed for this project.
 - C. Appendix C - General Contractor's Prequalification Questionnaire.
 - D. Appendix D - Electrical Contractor's Prequalification Questionnaire.
- 1.04 The following is a schedule for Contractor prequalification and opening of Bids:
- A. Prequalification Submittal Due Date: **Must be received by February 25, 2019 before 4:00 p.m. MST.**
 - B. Notice of Prequalification to Contractors (anticipated): **March 18, 2019.**
 - C. Contract documents available for review (anticipated): **April 8, 2019.**
 - D. Anticipated Bid Opening (anticipated): **May 16, 2019.**
- 1.05 Prospective Contractors desiring to be prequalified are hereby informed that they will be subject to and must fully comply with all of the requirements of the Bidding Documents.

ARTICLE 2 - EVALUATION

- 2.01 The Owner reserves the right to reject any or all responses to this request for qualifications, and to waive any irregularities in any response received.
- 2.02 The following criteria will be used to prequalify responsive and responsible potential Bidders, who will be invited to bid on the Project:
- A. Responsive Bidder: Means a Bidder who has submitted a Bid which conforms in all material respects to the Bidding Documents.
 - B. Responsible Bidder: Means a Bidder who has the capacity and capability in all respects to perform fully the contract requirements and who has the integrity and reliability to assure good faith performance. Among factors to be considered in determining whether the Bidder meets these standards, are:
 - 1. Financial, material, equipment, facility, and personnel resources and expertise necessary to meet contractual requirements;
 - 2. A record of integrity;
 - 3. A record of Successful Completion defined as: completion of a project on time within a reasonable time and budget.
 - 4. Qualified legally to contract with the Owner, and;
 - 5. Has not failed to supply any necessary information in connection with this Request for Qualifications.
- 2.03 The Engineer will evaluate the completed qualification submittals and make recommendations to the Owner. The Owner will determine and identify the highest qualified General Contractors and Electrical Contractors. Written notification of this determination will be sent to each Contractor.
- 2.04 Ranking System: Contractor qualification submittals will be ranked in accordance with the following system. Each statement will be reviewed and ranked based on the criteria and numerical values shown below. A minimum score of 70 points shall be required.
- A. General (10 points):
 - 1. Qualification Statement Clarity (1-5).
 - 2. Qualification Statement Completeness (1-5).
 - B. Relevant Experience/Performance (45 points):
 - 1. Past Project Performance (1-15).
 - 2. Timely Completion of Work (1-10).
 - 3. Prompt Warranty Service (1-10).
 - 4. Overall Successful Completion (1-10).
 - C. Project Team (30 points):
 - 1. Key Personnel Qualifications (1-10).
 - 2. Key Personnel Experience (1-10).
 - 3. Key Personnel Availability (1-10).
 - D. Financial Statement (15 points):
 - 1. Value of Current Work (1-5).
 - 2. Pending Claims/Disputes (1-10).

Total = 100

ARTICLE 3 - QUALIFICATIONS

3.01 Prospective General Contractor Minimum Qualifications.

- A. Contractor authorizes Owner's representative to verify any and all information contained in the Qualification Statement from references contained herein and hereby releases all those concerned providing information as a reference from any liability in connection with any information they provide.
- B. General Contractor must demonstrate successful completion during the past 10 years of at least three municipal water or wastewater treatment projects comparable in nature and scope to this project with a dollar value of \$15 million or more, and at least one of the three projects must have a dollar value of \$30 million or more. At least two of the projects must have been constructed in a cold weather climate with regular winter season snow and freezing temperatures.
- C. General Contractor must demonstrate ability to bond for a project with the value of at least \$45 million. Contractor must submit evidence of sufficient bonding capacity.
- D. General Contractor must confirm ability to comply with minimum insurance requirements as indicated in Appendix C and demonstrate compliance with State/Federal laws.
- E. General Contractor must designate a Superintendent, who will be dedicated to the project for the duration of the project. The proposed Superintendent must meet the following minimum qualifications:
 - 1. At least 10 years of construction experience.
 - 2. Significant role on at least three municipal water or wastewater treatment projects with a cumulative value of at least \$30 million.
 - 3. Superintendent must have demonstrated cold weather construction experience. At least two water or wastewater treatment projects included on their résumé must have been constructed in an area with consistent winter snow and freezing temperatures.
- F. General Contractor must designate a Project Manager, who will be committed to the project for the duration of the project. The proposed Project Manager must meet the following minimum qualifications:
 - 1. At least 10 years of construction experience.
 - 2. Served as Project Manager on at least three municipal water or wastewater treatment projects with a cumulative value of at least \$30 million.
 - 3. Project Manager must have demonstrated cold weather construction experience. At least two water or wastewater treatment projects included on their résumé must have been constructed in an area with consistent winter snow and freezing temperatures.
- G. Contractor shall list proposed project team members in Schedule A and attach resumes for each member demonstrating that minimum qualifications required herein are met. Proposed team members shall be dedicated to the Project and shall not be substituted without written approval from the Owner.

H. General Contractor must have a current E-100 license in good standing issued by the State of Utah.

3.02 Prospective Electrical Contractor Minimum Qualifications.

- A. Electrical Contractor authorizes Owner's representative to verify any and all information contained in the Qualification Statement from references contained herein and hereby releases all those concerned providing information as a reference from any liability in connection with any information they provide.
- B. Electrical Contractor must demonstrate successful completion of at least three municipal water or wastewater treatment projects in the last 10 years comparable in nature and scope to this project. At least two of the projects must have an electrical value of at least \$2 million.
- C. Electrical Contractor must demonstrate ability to bond for a project with the value of at least \$5 million. Electrical Contractor must submit evidence of sufficient bonding capacity.
- D. Electrical Contractor must confirm ability to comply with minimum insurance requirements as indicated in Appendix D.
- E. Electrical Contractor must designate a Superintendent with the following minimum qualifications:
 - 1. At least 10 years of construction experience.
 - 2. Superintendent role on at least three municipal water or wastewater treatment projects with a cumulative electrical construction value of \$3 million.
- F. Electrical Contractor must designate a Project Manager with the following minimum qualifications:
 - 1. At least 10 years of electrical construction experience.
 - 2. Project Manager role on at least three municipal water or wastewater treatment projects with a combined electrical construction value of \$5 million.
- G. Electrical Contractor shall list proposed project team members in Schedule A and attach resumes for each member demonstrating that minimum qualifications required herein are met. Proposed team members shall be dedicated to the Project and shall not be substituted without written approval from the Owner.
- H. Electrical Contractor must have a current E-200 license in good standing issued by the State of Utah.

ARTICLE 4 - MISCELLANEOUS

- 4.01 The prequalification process is a closed-ended prequalification process. The list of prequalified potential vendors will remain in effect for 6 months after the list of prequalified potential vendors is made available to the public.
- 4.02 Only the selected General Contractors and Electric Contractors that are prequalified will be allowed to participate in an invitation for bids or request for proposals for the Project.
- 4.03 The Owner will provide a written justification statement to each potential vendor who did not meet the minimum qualification for placement on the list. A protest to the Owner's decision that the potential vendor did not meet the minimum qualifications must be filed in writing with the Owner's manager within seven days after the date of the written justification statement, and must contain a concise statement for the grounds upon which the protest is made.

13. Minimum Insurance Requirements

A. Workers' Compensation and Employers' Liability Insurance: The liability limits, as required by state law, shall be not less than:

- 1. Workers' compensation:
 - a. Statutory.
 - b. Employers' liability: \$1,000,000 each occurrence.

B. Comprehensive Automobile Liability Insurance: The liability limits shall be not less than:

- 1. Bodily injury and property damage:
 - a. \$1,000,000 combined single limit for each occurrence.

C. Commercial General Liability Insurance: The liability limits shall be not less than:

- 1. Bodily injury and property damage:
 - a. \$1,000,000 combined single limit for each occurrence.
 - b. \$1,000,000 general aggregate.

D. Umbrella Liability Insurance: The liability limits shall be not less than:

- 1. Bodily injury and property damage:
 - a. \$4,000,000 combined single limit for each occurrence.
 - b. \$4,000,000 general aggregate.

E. Property Insurance: Contractor shall purchase and maintain property insurance coverage for the Work at the site in the amount of the full replacement cost thereof. This insurance shall be written on a Builder's Risk "all-risk" or open peril or special causes of loss policy form that shall at least include insurance for physical loss or damage to the Work, temporary buildings, falsework, Work in transit including ocean transit, and Work in storage at the project site or at another location acceptable to Owner, and shall insure against at least the following perils: fire, lightning, extended coverage, theft, vandalism and malicious mischief, earthquake, collapse, debris removal, demolition occasioned by enforcement of Laws and Regulations, water damage, and damage caused by frost and freezing.

F. Does your organization meet these minimum insurance requirements?

Yes No

14. Compliance with Federal/State Laws

A. Has your organization been assessed any penalties for noncompliance violations of the Federal or State labor laws and/or regulations within the past 10 years?

Yes No

1. If Yes, give details, including dates.

B. Does your organization have any ongoing investigations by any agency regarding violations of the State Labor Code, Utah Professional Corporation Act, or State licensing laws?

Yes No

1. If Yes, give details, including dates.

C. Has your organization been cited for violations of OSHA Standards and Requirements within the past 10 years?

Yes No

1. If Yes, give details, including dates.

D. Please provide an explanation for any question answered "yes" on a separate sheet of paper along with this document.
