

Instrument and Control Specialist

South Valley Water Reclamation Facility, a wastewater treatment facility serving the south central part of Salt Lake County, is accepting applications for an Instrument and Control Specialist. This position performs a variety of complex, specialized, skilled, and technical duties related to installing, maintaining, calibrating, programing, and troubleshooting electronic and electrical instrumentation and controls throughout the facility.

The position requires a High school diploma or equivalent. Graduation from a junior college with an associate in computer technology, instrumentation technology, electrical systems, or related field preferred. Minimum of ten years work related experience with industrial instrumentation and control. Calibration experience preferred. The ideal candidate would be a self-starter and an independent worker capable of taking initiative to develop a calibration program while working in a team environment with wastewater operators, mechanics and engineers within the scope of the job description.

The regular work schedule for this position is Monday – Thursday, four 10-hr days, with occasional overtime. This position includes a full benefit package: medical, dental, life/AD&D, STD/LTD, retirement plans (State Retirement, 401a), sick leave, vacation, and holiday leave. Optional benefits include cafeteria plan, additional life/AD&D, deferred compensation plans (457, IRA, Roth IRA), and tuition reimbursement. Pay range from \$55,719 to \$86,809. Starting pay will depend on the qualifications of the candidate. Physical/Drug testing is required. Equal Opportunity Employer. Employment applications are available on our website at www.svwater.com, under the customer service tab, then click on human resources. Please send resume/employment application to svjobs@svwater.com, or apply in person at 7495 South 1300 West, West Jordan, Utah, 84084.

Position closes 4:00 p.m. on Thursday, April 15, 2021
